## Key Skills

- Power BI
- Power Bi Reports
- Power Bi Dashboards
- Team Leading Skills
- SQL Analyst
- Excel
- SQL Analytics
- MySQL
- Python
- Data Analysis
- Data Cleansing
- Data Visualization
- KPI Analysis

## Certification

- Accenture North America Data Analytics And Visualization Job Simulation Certificate

- PwC Switzerland Power BI Completion Certificate

## Profile Summary

While I'm currently honing my skills in Power BI, SQL, and Excel through self-study and online resources, I have a solid foundation in these tools. I've successfully built basic dashboards in Power BI, showcasing my ability to visualize and analyze data effectively. My academic background and strong problem-solving skills equip me to quickly adapt to new challenges and learn advanced data analytics techniques. Additionally, I'm actively learning Python for data analysis to expand my skillset and contribute more comprehensively to data-driven projects. I'm eager to apply my knowledge and passion to a role that allows me to collaborate with a team and grow professionally in the field of data analytics.

## Education

**B.Tech/B.E. - Computers**
2022

Rajkiya Engineering College, Sonbhadra

Grade - 7.8/10

**12th**
2017

CBSE , English
Grade - 71.6%

**10th**
2015

CBSE , English

- Career Essentials In Data Analysis By Microsoft And LinkedIn

## Languages

- Hindi
- English

## Hobbies

- Playing Cricket
- Flying Kites
- Playing Video Games

## Extra curricular activities

- Sports

  Participation in district-level sports tournaments, winning two and being selected for the state-level cricket team.

  I excelled in college sports, winning a gold medal in the 400 m relay race and long jump at the annual sports fest, and being awarded the best goalkeeper in my college in 2019.

- Cultural Programs

  I actively participated in various cultural programs held in my college, fostering a well-rounded personality and enhancing my communication skills

Grade - 79.8%

## Projects

### E-commerce Sales Analytics Dashboard
1 Days

Developed an interactive Power BI dashboard to analyze e-commerce sales data and provide actionable insights.
**Key Skills Learned:**
- Data analysis and visualization using Power BI
- Data modeling and creating relationships between tables
- Creating custom visualizations (bar charts, pie charts, maps, etc.)
- Using parameters, filters, and slicers for interactive exploration
- Leveraging Power BI's advanced features to create dynamic and informative dashboards

### Created a dashboard in Power BI that reflects all relevant Key Performance Indicators (KPI)
1 Days

Created a dashboard in Power BI that reflects all relevant Key Performance Indicators (KPIs) and metrics in the dataset.
**KPIs included:**
- Overall customer satisfaction
- Overall calls answered/abandoned
- Calls by time
- Average speed of answer
- Average handle time (talk duration) vs calls answered
